

Monette Knapik is a dynamic and thought leader responsible for Enterprise Procurement Operations at CVS Health. Her responsibilities are to drive day-to-day execution of strategies, fostering required external relationships, developing internal working partnerships, building an enterprise-wide culture of stronger vendor/supplier partnerships, and driving innovation and growth opportunities. Additionally, she leads a cross-functional and cross-divisional commodity team of Category Managers to support and influence spend across the following categories: enterprise travel, corporate credit card, wireless, wireline, broadband, fleet, small parcel and supplier diversity.

CVS Health was inducted into the Billion Dollar Roundtable in 2017 and does over \$2B with small and certified minority owned businesses. By tapping into this expanding supplier pool, we are able to build supply chain excellence, add distinctive goods and services to our business offerings and enhance our brand among customers.
